BRAINERD, MINNESOTA, FRIDAY, NOVEMBER 28, 1919

Price Three Cents

DRASTIC ACTION TO GET MINES RUNNING IS EXPECTED SOON

On the Part of the Government, as Miners and Operators are Unable to Agree on Wage Scale

Government's Proposal of 14 Per Cent. Increase is Accepted by Operators but Rejected by Miners

(By United Press)

Washington, Nov. 28—The administration's proposal for a settlement of the coal mine strike, promulgated by Fuel Administrator H. A. Garfield, which calls for a 14 per cent wage raise to the miners, has been accepted by an overwhelming majority of the operators, but the miners refuse to consider it as wholly inadequate.

Drastic government action to get the coal mines running is expected here before the end of the week.

With the west in the grip of a blizzard, which seems about to sweep eastward, the coal operators and representatives of the striking miners break up a joint conference here yesterday. Unable to agree on a wage increase, the conference adjourned sine die last night. Government officials today have arranged for a conference. Attorney General Palmer hurried back to Washington expecting to take council with Fuel Administrator Garfield.

President Wilson's cabinet meets tomorrow. The coal situation will be the first question to be taken up as it was expected. What action the government will decide upon is unknown. Federal operation of the mines is one possibility. Although this is considered unlikely, the government, it is emphasized, would face the same difficulties in getting the men to return to work as the operators were unable to overcome. No legal action by Palmer would get the miners back to work in large numbers according to miners' officials.

Palmer now is understood to have evidence upon which to base criminal suits against several leaders in the miners' union.

Announcement of Government's Next Move Delayed Until Tomorrow

RALPH COUCH
(United Press Correspondent)

Washington, Nov. 28—Announcement of the next move of the government in the coal situation may be delayed until tomorrow or perhaps to Tuesday.

Fuel Administrator Garfield today set about getting the government's plans into shape following the breaking up late yesterday of a joint conference of miners and operators and the refusal of the miners to accept a wage increase of 14 per cent as worked out by Garfield. Garfield refused to give any indication as to what action the government will take beyond this statement.

"Production of basic necessities will be produced by the government. The government will resent profiteering by the operators and miners."

"It seems likely today that the government will endeavor to get as many miners back to work as possible to rush production and protect the men through distribution of troops."

Burning the Coal Bin

Chicago, Nov. 28—Bituminous coal consumers of the middle west today started tearing down the coal bin to use it for fuel.

With the first real snow storm covering the central and western states many reports were received that buildings had been torn down to seize the lumber for stove wood. Accumulations for years in yards of coal dealers were captured by manufacturing plants and used to keep up operations. Many plants already have been closed down. Schools have been closed indefinitely. Theatres have been banned. In several sections where the fuel situation is acute industrial plants have been shut down from Wednesday until Monday to conserve the rapidly dwindling supply of coal. Train service has been cut down to the minimum.

Twelve Dangerous Radicals at Liberty

Who Were Arrested at Seattle Last Winter and Paroled to Appear at Hearing When Wanted

(By United Press)

New York, Nov. 28—Twelve radicals, arrested in Seattle last winter, alleged to have attempted to overthrow the municipal government, are still at liberty, despite the fact that warrants for their deportation were issued March 17, discovery of which developed at the hearings of the congressional committee on nationalization and immigration at Ellis Island today.

The twelve men were paroled upon agreement to appear when wanted, but it was disclosed they never appeared. When deportation warrants were received, Congressman Rankin of California, said immigrant officials at Ellis Island asked the department of labor what action it should take to apprehend the men. The department ordered the Ellis Island officials to hold the warrants until Jan. 1.

These men, in the opinion of the congressional committee, were among the most dangerous radicals ever apprehended in the United States, and when they arrived in New York when brought from Seattle, it created a small riot by sympathetic radicals.

It was reported the hunger strike of sixty-seven men and two women, alleged radicals, pending their consent to appear for deportation hearings, continues today. The strikers have missed eleven meals.

Steps Taken to Frustrate Plot of Bolsheviks for Red Christmas

(By United Press)

Washington, Nov. 28—The government today took steps to frustrate the suspected "Red Christmas" plot of Bolsheviks in America.

Mails Will be Examined

Public officials in many parts of the country have been ordered to scrutinize all Christmas packages carefully. Acting with the bureau of investigation and justice, department officials of the postoffice department

London Bricklayer, Now British Peer With \$180,000 Income, and His Wife, Lady Lennox

John G. H. Rackstraw, a London bricklayer, is the latest addition to the British peerage. His claim to the Scottish title of Lord Lennox of Dumbarston has been allowed by the courts and he has inherited an es-

teate embracing ten square miles. It brings in a yearly rental of about \$180,000. This photograph shows the former bricklayer and Lady Lennox (at right) with two nieces in the yard of their London home.

More Watchful Waiting in the Jenkins Affair

Cabinet Will Consider Situation Before Reply is Sent to Mexican Note Refusing to Release Wm. O. Jenkins

(By United Press)

Washington, Nov. 28—Carranza's refusal to liberate American Consul Wm. O. Jenkins at Pueblo, Mexico, probably will be laid before President Wilson's cabinet before a reply is sent by the United States, it was learned today at the state department.

Unless confidential information from American agents below the border changes the aspect of the affair, the next step will be the request for more detailed information as to the charges against Jenkins.

The text of Carranza's note was expected to be made public today. It was received here yesterday afternoon and rushed at once to the home of Secretary Lansing. Contrary to earlier reports, the state department advised Jenkins not to secure freedom on bail. Giving of bail in the opinion of the government was a confession of guilt.

Reports so far made by Mexico have failed to convince this government that Jenkins is guilty of collusion with bandits. It was learned. The state department believes he is innocent. The Mexican embassy here has issued several statements to throw suspicion on Jenkins. One of these alleged he was guilty of conspiring with bandits in 1914.

ment will take every precaution to intercept bombs that may have been sent through the mails. It is possible that regulations may be changed covering mailing of Christmas packages. Express companies also have been warned to be on the lookout.

Secret service agents began to suspect weeks ago that the radicals hoped to stage another dynamite outrage during the Christmas season. This gradually became certain as tips began to appear in official quarters.

Socialists Will Participate in Opening of Italian Parliament

(By United Press)

Rome, Nov. 28—The socialist executive committee has ordered the socialist members of the chamber of deputies to participate in the opening of parliament according to the news paper Avanti.

King Victor Emanuel expects to convene the chamber of deputies on Monday. The socialists have threatened to start a disturbance to prevent the king from reading his address. It has been the custom of the socialists to be absent from the chamber when the king appears as a silent protest against monarchism.

According to the Mexican reply he charges of falsifying a statement and not the charge of connivance with the bandits who captured and held him for a ransom, is the main ground for Jenkins' imprisonment.

The state department will obtain all evidence possessed by the American government with regard to this new charge, and will make a thorough investigation before making a final decision and deploy to Mexico. It will be several days it was learned before the final decision of the United States will be sent to Mexico, in the belief that the new Mexican constitution provides specifically that all cases against foreign diplomats and counselor officers are within the jurisdiction of the Mexican federal court.

This would make illegal the arrest of Jenkins. The note today demands evidence to support the charge of making false statements will be sent to the Mexican government through the American embassy in Mexico city. The Mexican reply of yesterday to the United States demanding immediate release of Jenkins, was not made public here today and it is not known when its publication will be authorized.

All Enemy War Ships to Be Destroyed

Except Enough to Compensate France and Italy for Losses Sustained

(By United Press)

Paris, Nov. 28—The supreme council today decided that all enemy war ships shall be destroyed except those to be turned over to France and Italy in compensation for war losses. The council will order delay in the destruction of a number of ships which are now being used temporarily.

The council also discussed distribution of war material and docks to be delivered by Germany as compensation for the sinking of the interned German fleet at Scapa Flow. It notified Roumania a reply to the note handed her Nov. 24 must be given the allied representatives in Bucharest not later than Dec. 2.

M. BARTHOLOME

M. Bartholome, the French sculptor, famous for his statue, "Aux Morts" ("To the Dead"), which stands in the Pere Lachaise cemetery in Paris, has been selected to make a replica of this statue to be placed near the statue of Liberty.

It spread so quickly that at an early hour today every building in the square was burned. The Howard Ross monument on Eutaw street had either been wreck or damaged.

High winds swept burning embers a dozen blocks. Roofs and awnings of the Lexington market were on fire in a number of places and roofs on fire at the big department stores were stamped out by employees.

The loss is estimated at \$1,000,000. Nine firemen were seriously injured but there were no casualties reported.

Among the most important buildings burned were the McCoy Hall, Typographical building, old biological laboratory, Loering Hall and the chemical laboratory. The fire was reported under control by mid-afternoon.

Tampa Sunk by Submarine

Washington, Nov. 28—The United States coast guard steamer Tampa, was sunk by a German submarine on Sept. 26, 1918, in Bristol Channel, England, with a loss of 112 officers and men, it was revealed in the annual report of the coast guard.

The Tampa had accompanied a merchant vessel from Gibraltar into Bristol Channel with a merchant convoy and was proceeding toward Milford when sunk, presumably by a German submarine.

Only the bodies of two members of the crew and some of the wreckage were found.

Disastrous Fire in Baltimore

McCoy Hall of Johns-Hopkins University and Many Other Buildings Were Destroyed

(By United Press)

Baltimore, Md., Nov. 28—The most disastrous fire in Baltimore since 1904, broke out a few minutes before midnight in McCoy's hall, one of the Johns-Hopkins University buildings.

It spread so quickly that at an early hour today every building in the square was burned. The Howard Ross monument on Eutaw street had either been wreck or damaged.

High winds swept burning embers a dozen blocks. Roofs and awnings of the Lexington market were on fire in a number of places and roofs on fire at the big department stores were stamped out by employees.

The loss is estimated at \$1,000,000. Nine firemen were seriously injured but there were no casualties reported.

Among the most important buildings burned were the McCoy Hall, Typographical building, old biological laboratory, Loering Hall and the chemical laboratory. The fire was reported under control by mid-afternoon.

The official announcement showed the following vote:

Lady Astor, 14,495; W. T. Gay, 9,292; Isaac Foote, 4,139.

Lady Astor's majority was only about 4,000, almost 1,000 less than she had predicted.

Conference of Governors Held in Chicago Sunday

To Discuss State Operation of Mines if Situation Does Not Change

Soon

(By United Press)

Des Moines, Iowa, Nov. 28—A conference of the governors of bituminous coal mining states will be held in Chicago Sunday to discuss state operation of the mines "if there is no change in the Washington situation during the day."

Governor W. L. Harding of Iowa made this announcement today following a long distance telephone conversation with Governor Gardner of Missouri. The Iowa chief executive said the conference would be called jointly by Governor Gardner and himself.

Message to Congress Dec. 2

(By United Press)

Washington, Nov. 28—President Wilson's message will go to congress Tuesday, Dec. 2, the second day of the new session, it was stated at the White House today.

The president is still working on the message but it is expected to be completed and ready for the printer at the end of this week.

Unusual Climatic Conditions on Coast

Snow Lay Two Inches Deep Among the Orange Trees in the Riverside District

(By United Press)

San Francisco, Calif., Nov. 28—Atmospheric conditions were normal in California today after two days of unusual phenomena.

The wind swept at a velocity of sixty-two miles in San Francisco Bay district. Snow laid two inches deep among the orange trees of the Riverside side. Wind did much damage.

'MACK-SENNETT' GIRLS WERE NOT GENUINE STARS

—Is Theatre's Claim

Duluth Amusement Company in Answer to Suit Asserts They Were "Crude" Actresses

GIRLS EXHIBITED IN BRAINERD

Duluth Lyceum Charges Losses, Says Girls Came From Chicago, Minneapolis, Etc.

An echo to the bathing girls that exhibited their charms in Brainerd comes in this story from Duluth published in the Duluth News-Tribune.

The pulchritudinous curves of a certain bevy of "bathing beauties" that appeared at a Duluth theatre will be the legal morsel over which opposing attorneys will debate the counter claims for damages in district court, involving the Lyceum Amusement company and the Linick-Jacoby Enterprises.

A suit against the Lyceum Amusement company was started by the Linick-Jacoby concern for \$830, on a charge of breach of contract. The Lyceum company retaliated with a denial of the charge and a counter claim for damages of \$2,000, alleging that the "bathing beauties" who appeared in the movie show "Yankee Doodle in Berlin," offered by the plaintiff at the defendant's theatre, were "falsely advertised and represented as the Mack-Sennett bathing girls, when, in fact, they were all obtained from Chicago, Minneapolis and other points."

It is further charged by the defendant that none of the girls appearing at the defendant's theatre ever were with the Mack-Sennett bathing beauties, but were "inexperienced, crude actresses that neither acted nor acted" like the members of the original Mack-Sennett group.

The plaintiff, Linick-Jacoby, alleged that \$2,000 was to have been received from the defendant, but that a balance of \$830 is still unpaid. A judgment was granted by Judge H. A. Dancer to the plaintiff by default, but through a stipulation of the attorneys this order is to be set aside as a result of a misunderstanding over the date of serving of summons.

The defendant charges that heavy losses were suffered when patrons realized that the "bathing beauties" were not of the Mack-Sennett variety, following the opening performance. The case will be tried during the January term of the district court.

Laughter as a Medicine.

If the people only knew the medicinal power of laughter, of good cheer, of the constant expression of joy and gladness, half the physicians would be out of work. Laughter is undoubtedly one of nature's greatest tonics. It brings the disordered faculties and functions into harmony; it lubricates the mental bearings and prevents the friction which monotonous, exacting business engenders. It is a divine gift bestowed upon us as a life preserver, a health promoter, a joy generator, a success maker.—Orison Swett Marden.

Rare Edition of "Pilgrim's Progress."

One of the outstanding items in a recent Sotheby sale was a copy of the third edition of Bunyan's "Pilgrim's Progress," London, "Printed by Nath Pender at the Peacock, in the Poultry near Cornhill, 1679." This is the first complete edition of this immortal work and excessively rare. It has an engraved frontispiece by R. White it which is represented a portrait of Bunyan sleeping over a den in which there is a lion and above him Christian with book in one hand, a staff in the other and a burden on his back, toiling up from the City of Destruction to a city on the heights bathed in sunlight.—A. G. Keller in The Review.

In No Hurry.
A boy was leaning against a post when a man came by.

"What are you doing?" he asked the boy.

"Nothing!" was the answer.

"Get any pay for it?"

"No!"

"Why don't you work? I can offer you a job."

"Regular?" asked the boy.

"Yes."

"And pay?"

"No," said the man—"not for the first week, but the second week I'd pay you."

"Well," replied the boy, "I'm all right here, so I'll come round the second week!"

A Philosopher.

I confess I have a soft place in my heart for that rare character who is content with the world as he finds it and who does not attempt to appropriate any more of it to himself than he absolutely needs from day to day. He knows from the beginning that the world could get on without him and he has never had any anxiety to leave any result behind him, any legacy for the world to quarrel over. He is really an exotic and his life is perpetually misunderstood by his neighbors because he shares none of their anxiety about "getting on in life."—Charles Dudley Warner.

Home.

Home cannot be given us. We may be given a house, a place to eat and sleep. This is not a home. A home is a place of love and rest and peace. Love and rest and peace must be deserved, must be earned. Nobody can hand them to you as so many packages. They are matters of reciprocity. If you have none to give, there will be but little for you to receive.—Western Methodist.

Organization to be Christened, Constitution to be Amended Permitting Membership Fee

(Contributed)

Child welfare will be the subject discussed at the women's meeting at Elks' hall on Saturday afternoon at 3 o'clock. The following is the program:

Report on the Child Welfare program at the organization meeting of the League of Women Voters—Miss Anne Severance.

Vocal solo (selected) — Mrs. H. E. Smith.

Work of the County Child Welfare Board—Mrs. Irma Hartley.

Work of the Public Welfare Nurse—Miss Ethel Beyers.

Miss Anna Severance of the law firm of Severance & Severance, of Crosby, will have an interesting report, as she is as good a reporter as she is a lawyer. She received many compliments for the manner in which she conducted a case in court this week. Mrs. H. E. Smith is a recent valued addition to Brainerd musical talent.

Those who helped buy a car for the use of the public health nurse, will be interested in learning more about her work, and those who refused to help will probably be ashamed of themselves, and will offer to contribute towards its maintenance, after hearing the report of Miss Beyers.

The work of the Child Welfare board is so important that we already wonder how we ever did without such a board to look after neglected children. No doubt Mrs. Hartley will have an interesting, if not a sensational report.

There are two matters of business to be brought up. One is the christening of this organization. It is rather awkward to announce the meetings of an organization that hasn't a name, so, whether there's much or little in a name, it is quite necessary to have one.

Notice is hereby given of the intention to amend the constitution so as to permit of a membership fee.

The date of the next Baby Clinic will probably be announced at this meeting.

Real Mental Discipline.

A mind is disciplined, not by reason of the quantity of related or unrelated matter that has been displayed before it, or crammed into it, but when it has learned to confront the difficult with intrepidity, relying upon methods of attack which it knows it can use with dexterity and precision because it has been using them right along, and which are in the available kit of tools just as the carpenter's saw and chisel lie in his chest sharp and ready for the grip of his hand. Mental discipline is a matter of the quality of instruction, and the quality of the mental application demanded by the instructor, rather than of the quantity of subjects presented. Hence a few proper subjects in qualified hands are enough to make a start with.—A. G. Keller in The Review.

In No Hurry.
A boy was leaning against a post when a man came by.

"What are you doing?" he asked the boy.

"Nothing!" was the answer.

"Get any pay for it?"

"No!"

"Why don't you work? I can offer you a job."

"Regular?" asked the boy.

"Yes."

"And pay?"

"No," said the man—"not for the first week, but the second week I'd pay you."

"Well," replied the boy, "I'm all right here, so I'll come round the second week!"

A Philosopher.

I confess I have a soft place in my heart for that rare character who is content with the world as he finds it and who does not attempt to appropriate any more of it to himself than he absolutely needs from day to day. He knows from the beginning that the world could get on without him and he has never had any anxiety to leave any result behind him, any legacy for the world to quarrel over. He is really an exotic and his life is perpetually misunderstood by his neighbors because he shares none of their anxiety about "getting on in life."—Charles Dudley Warner.

Home.

Home cannot be given us. We may be given a house, a place to eat and sleep. This is not a home. A home is a place of love and rest and peace. Love and rest and peace must be deserved, must be earned. Nobody can hand them to you as so many packages. They are matters of reciprocity. If you have none to give, there will be but little for you to receive.—Western Methodist.

N. P. MAIN LINE
MAYBE THRU CROSBY

Report that a More Direct Route Desired for Cuyuna Range Ore to Head of Lakes

THE SURVEY PREVIOUSLY MADE

Lieut. Frank Bloomfield, Returned Soldier, Married to Miss Eva Miller Tuesday

Crosby, Minn., Nov. 25.—Crosby may soon have the Northern Pacific main line running through town, according to information received, such plans having been under way for the last three years but war activities having caused them to be shelved until now. It is expected the road will change its present course at Cedar Lake, seven miles east of here, and run west along the north side of Serpent lake and through Crosby and Ironton, meeting the main road again at Loech, about ten miles west of here. While Deerwood would be eliminated altogether a more direct run for the ore would be furnished to Duluth. Construction work is to start early in the spring, it is said.

Frank Bloomfield, a lieutenant on the battleship Nevada during the war, and a Crosby boy, who has been with the John A. Savage company, was married to Miss Eva Miller last Tuesday. Miss Miller taught school here for several years until 1917. After a short honeymoon they will make their home in Duluth. A reception was given them at the home of Attorney and Mrs. D. J. Severance Friday evening.

Mr. and Mrs. Bruno Olson announce the birth of a daughter Nov. 18 at the Miners' hospital. Dr. B. A. Smith returned Thursday from a hunt north of Biwabik. Indian agents this week dumped

about twenty-five barrels of home-made wine in the west end of town.

Miss Mamie Let returned to St. Paul Sunday after a visit with her brother, Ed Lee.

Mrs. Milnor and others belonging to the Degree of Honor, went to Brainerd to attend the convention Tuesday.

To save coal, no parties will be held in the school buildings on Saturday nights.

Miss Mand Severance, who has been taking special studies in the high school, has been compelled to stop on account of her eyes.

Crosby's new \$10,000 White fire truck arrived Thursday and Chief Guith is busy trying it out and getting on to the running of it. The council will appoint several drivers. The old hall is being remodeled to accommodate the machine.

H. Lefko has been in Brainerd this week serving on the petit jury.

Mrs. John Hallappa has traded her First street north store and rooming house building for a farm near Menahza, Minn., and left this week for that place. Mrs. M. Rosenthal has leased the rooming house and will run it.

YOUNG TO BATTLE
EMKE AGAIN SAY FANS

Ironton Baseball Club Preparing for Another Bout Between Young and Minneapolis Man

T. E. DAHLJELM TO MICHIGAN

Dr. Irving Badeaux Removed to Brainerd, Associated With Dr. J. A. Thabes

Ironton, Minn., Nov. 25.—The Ironton baseball club may soon put on another bout between John Young of Crosby and Billy Emke of Minneapolis. Young pounded Emke's ribs quite heavily in the first mixup. Another encounter would take well with the fans.

T. E. Dahljelm, formerly of Duluth and Barrows, left with twenty-five men for Flint, Mich., where they will be employed in an automobile factory.

Ray Dunlan of St. Paul is visiting friends in Ironton. He has been laid up for the last three months with an injured hip.

Miss Mildred Kisler has returned from Wright, where she went to attend the wedding her brother.

Mr. and Mrs. J. W. Stearns moved to Ironton this week.

Miss Georgia Frazer left this week for Minneapolis to spend the winter.

Mrs. Dave Garaway returned Friday from her visit in Superior.

Miss Hoffmeister is visiting her sister in Morristown.

Miss Emma Cuff spent a few days with friends in Duluth this week.

Mr. and Mrs. Gust Laskovitz and family have moved to New York Mills.

A farewell party was given Monday evening at the home of Mr. and Mrs. Howard in honor of Mr. and Mrs. L. Sullivan who will move to Hibbing.

Louis Gerlach left Wednesday for his former home in Long Prairie. He has taken a popular young lady of Melrose for a bride.

Mrs. C. C. Rogers, who has been visiting her daughter, Mrs. R. T. Wescott, left this week for Walker to visit relatives.

Mrs. E. M. Thrall left Thursday last for Chicago to visit and later will go to French Lick Springs, Ind.

Dr. Irving Badeaux has removed to Brainerd and will be associated with Dr. J. A. Thabes.

Refined Robbery.

"I don't understand all these daylight robberies," said the police officer.

"The explanation is easy," replied the criminologist. "Robbers now have their own motor cars. Wealth brings refinement and they do not care to come into contact with the rough element one is likely to meet on the streets at night."

Inconsistent.

"Bah, sir!" snorted the irritable member of the club. "It's a waste of time to argue with you!"

"You're an inconsistent fellow!" said the unhappy victim.

What do you mean?

"If you consider it a waste of time to argue with me, why don't you leave go of my coat lapels and let me get on with my business?"

Stunned Into Silence.

"Would you say, 'Thank you,' to a man who gave you a seat in a street car?"

"I don't know," answered Miss Cayenne. "Maybe I'd be too surprised to speak."

Don't Disregard a Cold

A neglected cold may develop into most serious sickness. The influenza and pneumonia that swept the country a year ago were preceded by an epidemic of colds. Foley's Honey and Tea will check a cold if taken in time. It loosens phlegm and mucus, clears air passages, eases hoarseness, stops tickling throat. H. P. Dunn.

DOG PROPERLY STANDS FIRST

Of All the Brute Creation, That Faithful Animal Has Rendered the Greatest Service to Man.

In the early days, centuries and centuries ago, man lived mostly by the chase, as today the last surviving savage tribes still live. The raising of herds, the tilling of the soil, the manufacture of goods, all were unknown. Wild animals, hunted in the forests with stone weapons and pointed sticks, furnished almost the only resource.

Their flesh gave food, their skins provided clothing. To catch the game, a fleet-footed auxiliary in the chase was necessary; to keep these dangerous animals in a proper state of awe, a courageous defender was needed by man.

This auxiliary, this defender, and, best of all, this friend, devoted even to death, was the dog; a gift from heaven to help man in his pitiful beginnings.

With the aid of the dog, life was rendered less perilous, food more assured. Leisure followed, and from being a hunter man became a herdsman.

The herd was formed, at first very indolent and at the slightest lack of watchfulness taking again to the wild life of old. Its keeping was confined to the dog, which, posted on some rising ground of the pasture, its

seen to the wind and ear on the watch, followed the herd with vigilant eyes and rushed to bring back the runaways, or to drive off some evil-intended beast. Thanks to the dog, the herd gave abundance—milk and its products, flesh for food and warm wool for clothing. Then, relieved from the terrible anxiety concerning daily provisions, man took it into his head to dig in the earth and make it produce grain. Agriculture sprang into being, and with it, little by little, civilization.

By the very force of circumstances, therefore, man in all countries is at first a hunter, later he becomes a herdsman and ends by being an agriculturist. The dog is absolutely necessary to him, first for hunting, then for watching and defending the herd. Of all our domestic animals, accordingly, the dog is the earliest on record and the one that has rendered us the greatest service.—Chicago Daily News.

Helgoland Resuming.

The islanders, forced to migrate to the mainland during the war, have come back to Helgoland, and the smallest nation in the world, as the Helgolanders like to call themselves, is hoping that by another season the island will again be a popular summer resort. The thought that most disturbs them is the possibility that the demolition of the fortifications by the entente commission which is presently to arrive for that purpose may work some injury to the natural beauties of Helgoland.

A correspondent who went there to have a last look at the German engineering which will soon be demolished, reports a state of general satisfaction among the islanders, and finds that Prussianism seems to have left no impress on the civil population.

The feeling is everywhere that the future looks full of promise, and that the past is well got rid of.

Better Stories to Be Told.

"Let me write the songs of the nation and I care not who makes the laws," was the idea of a luncheon given recently by T. Tokonami, minister of home affairs, at his official residence to story tellers and singers from the cheaper amusement halls of Tokio, Japan has hundreds of story-telling halls, which vie with the cinemas in attracting throngs unable to attend more expensive entertainments.

Tokonami said that the songs and stories of the people have a great influence on the character of the Japanese community, and he urged his guests to give the public only that which will elevate the mind and character, as well as prove interesting and instructive.—From the Japan Society Bulletin.

New Zealand's Trade With Japs.

Japan's imports into New Zealand are increasing rapidly, and they consist almost entirely of manufactured goods. During the war period large quantities of Japanese goods flooded this market, some of which were of a fairly good quality, but some were very shoddy. The shoddy goods were imported chiefly during 1916 and 1917, since which time the quality of the Japanese manufactures has greatly improved.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the messy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides brightening darkening hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

AMUSEMENTS

The Birth of a Race

In the early days, centuries and centuries ago, man lived mostly by the chase, as today the last surviving savage tribes still live. The raising of herds, the tilling of the soil, the manufacture of goods, all were unknown.

Wild animals, hunted in the forests with stone weapons and pointed sticks, furnished almost the only resource.

Their flesh gave food, their skins provided clothing. To catch the game, a fleet-footed auxiliary in the chase was necessary;

to keep these dangerous animals in a proper state of awe, a courageous defender was needed by man.

This auxiliary, this defender, and, best of all, this friend, devoted even to death, was the dog; a gift from heaven to help man in his pitiful beginnings.

With the aid of the dog, life was rendered less perilous, food more assured. Leisure followed, and from being a hunter man became a herdsman.

The herd was formed, at first very indolent and at the slightest lack of watchfulness taking again to the wild life of old. Its keeping was confined to the dog, which, posted on some rising ground of the pasture, its

seen to the wind and ear on the watch, followed the herd with vigilant eyes and rushed to bring back the runaways, or to drive off some evil-intended beast.

Thanks to the dog, the herd gave abundance—milk and its products, flesh for food and warm wool for clothing. Then, relieved from the terrible anxiety concerning daily provisions, man took it into his head to dig in the earth and make it produce grain. Agriculture sprang into being, and with it, little by little, civilization.

By the very force of circumstances, therefore, man in all countries is at first a hunter, later he becomes a herdsman and ends by being an agriculturist. The dog is absolutely necessary to him, first for hunting, then for watching and defending the herd. Of all our domestic animals, accordingly, the dog is the earliest on record and the one that has rendered us the greatest service.—Chicago Daily News.

MACHINISTS 26TH ANNUAL BALL SOON

To be Given December 31 at Gardner's Auditorium. Committees are Announced

MAYOR IS HONORARY CHAIRMAN

Bert Kyllo is General Chairman—Al Cuskey Heads the Decorating Committee

The International Association of Machinists, North Star Lodge, No. 197, will give their twenty-sixth annual ball at Gardner's auditorium on the evening of December 31.

Mayor F. E. Little has been named honorary chairman. The general chairman is Bert Kyllo. Committees named include:

Music—A. G. Evans, G. J. Kroes and Edward Bacon.

Printing—J. J. Roney, M. D. Rose, G. J. Kroes.

Decorating—Al Cuskey, A. E. Evans, Edward Kobilka.

Floor—Hugo Sundberg, A. E. Evans, Edward Bacon, Edward Kobilka.

Door—Adolph Denis, Floyd Seeger. These dances are always prominent social events in the history of the machinists' union and are always largely attended.

AMERICAN MINING CONGRESS

Carl Zapffe Named Member Committee on Resolutions—The Proceedings

Carl Zapffe has returned from St. Louis where he attended the American Mining Congress. Mr. Zapffe was named the Minnesota member on the resolutions committee.

Thirty-three states, Alaska, Washington, D. C., were represented. Over 900 delegates were registered, making it the largest and most successful convention ever held. Topics discussed included railroads, war materials, war tariffs, labor and freight rates in the mining industry. The mining industry and correlated branches furnished 58% of all the railway freight in the United States.

Protection of American citizens in foreign countries was demanded of the United States. The Mexican consul stationed at St. Louis and representing a wide district, has presented and objected strenuously at any possible reflections on Mexico, contending murders charged were committed by bandits.

Exhibitions included mining machinery of all kinds, displays of the U. S. Department of the Interior, U. S. Bureau of Mines, signal corps, chemical warfare section, which latter two departments demonstrated the use of signal devices and chemicals. Speakers included Gov. Roberts of Tennessee and Gov. Gardner of Missouri. The stabilizing of American currency was also considered by the convention.

RECEIVED TOO LATE

Thanksgiving Day Proclamation of Mayor F. E. Little Received in Mail by Dispatch

The Thanksgiving Day proclamation of Mayor F. E. Little was received in the mail too late for publication on Wednesday afternoon.

In his proclamation Mayor Little asked the people of the city to suspend their usual daily activities for the purpose of gathering in their homes and churches to observe in a spirit of thankfulness and praise the day so designated.

"Let us express our gratitude to Him whom we recognize as the source of all our blessings," said Mayor Little, "and be grateful to Him for our American government and for the liberties and opportunities for which it stands."

In the Courts

Charged with having 24 quarts of whiskey in his possession, Buff McNaughton was taken in custody by Indian agents Wednesday night. At a preliminary appearance before U. S. Court Commissioner W. A. Fleming, Mr. McNaughton was bound over to the federal court, bonds being promptly furnished.

Ivan Sheets, charged with permitting gambling at his lunch room, was in municipal court Friday morning and the case was continued to Monday morning.

In district court a new petit jury has been chosen to serve in January when court reconvenes.

A Cheerful Recommendation
"They should be in every traveling man's grip," writes Geo. Jenner, 416 Labor St., San Antonio, Tex., of Foley Cathartic Tablets. "They are the best laxative I have taken and I cheerfully recommend them to anyone suffering with constipation or biliousness." They cleanse bowels, sweeten stomach, benefit liver. H. P. Dunn.

REGULATIONS TO SAVE COAL

Citizens Cautioned to Conserve Fuel Wherever Possible, Some Expedients Useful

TURN OUT LIGHTS NOT USED

Turn Off Radiators in all Rooms not in Use—Do Not Waste Any Hot Water

The United States Railroad Administration has made public these instructions from the Northwestern Regional Coal Committee:

Fuel can be saved in the present emergency with the cooperation of the public.

All public institutions, office buildings, hotels, department stores, churches, schools, theatres, flats, residences and all other structures using heat or light should

Not waste hot water. Every gallon wasted wastes so much fuel.

Turn off radiators in all rooms not in actual use.

Waste of light is waste of fuel.

Turn out lights not in use.

Ventilate properly but do not waste heat.

These instructions should be so construed as to in no way cause suffering or hardship.

MANY AT OPENING

Cook's Bowling Alleys Thronged With People at the Formal Opening Thanksgiving Day

Fred C. Cook's bowling alleys on the second floor of the Bane block were crowded from the opening hour, 1 o'clock Thanksgiving Day afternoon. The six alleys were patronized all day and evening.

Through incessant work, day and night, the alleys were put in fine shape, and although some of the inside furnishings are still to be installed and other improvements made, the alleys themselves were in tip top shape and drew all the bowling talent of the city.

A fat, juicy turkey was offered for high score and this resulted in a tie between Al Zebel and Leslie Wentworth, each knocking down an even 290 pins. Tonight at 8 o'clock a match game will be played between Zebel and Wentworth, one game only, to decide the tie.

With bowling in full swing, it will now be but a short time when clubs will enter the lists and bowl for championship honors. Records made in these tourneys will be published in the Dispatch.

SECTION MEN GET BOOST

Eight-Hour Basic Day Established. With Overtime Pay Increased

Washington, Nov. 28.—A new wage and working agreement has been entered into between the Railroad administration and officials of the Brotherhood of Maintenance of Way employees and Railway Shop Laborers. While demands of the union were not fully met, the eight-hour basic day was established for track laborers and others of that classification and time and half pay after that hour was provided. Most of the other employees included under the agreement will receive time and a half overtime pay after ten hours.

Signing of the new contract by Director General Hines ended negotiations which have been in progress since February. Approximately 400,000 men are affected. The contract provides that it shall be applicable during the period of federal control of the roads unless notice of thirty days is given of its cancellation.

WAS IN NEW ORLEANS

Dr. C. A. Nelson Attended National Veterinary Association Convention

Dr. C. A. Nelson, coroner and well known veterinary, president of the State Veterinary Medical Association, has returned from the national veterinary association meeting held in New Orleans a built under Mississippi practice from Minnesota in attendance.

For 75 miles, said he, the Illinois Central tracks ran alongside submerged land and little shanties on high stilts dotted the water wastes. New Orleans is built under Mississippi water level and in consequence manatees are used to bury the dead. The rich have very substantial ones. The poor rent theirs and if delinquent in rent, corpses may be ordered out. The south had many good points, but in general could not compare with Minnesota.

Her Musical Choice.
"So your daughter is musical?" "Yes?" "Is she going in for classical works?" "No. Jazzical."

BEMIDJI ASTIR, BASEBALL FEVER

Complete Organization Formed for Next Season, \$2,000 Cash for 1920 Team

AFTER STATE CHAMPIONSHIP

Brainerd to Get Busy. New Baseball Park is an Absolute Essential in This City

Baseball fans arriving here report our northern neighbor, Bemidji, all astir with winter baseball fever and it is claimed that a complete organization has already been formed, a board of directors and manager and \$2,000 cash donations secured for a 1920 team.

Believing in the old adage that the early bird gets the worm, Bemidji is out to get some of this "state championship" stuff for their town the coming season and Brainerd should take the tip and get busy too if they want to hold up their 1919 reputation in the baseball world.

What we need first of all is a new baseball park. The Koering field positively cannot be used another season unless a new sewer is dug and tiled through the grounds and a new grandstand, fence and bleachers built and such repairs would cost more than it would take to put up a real park in a good location.

Some one ought to come to the front with a suggestion or proposition that would give us a park that Brainerd could be proud of.

It has been suggested that the 1919 management which was headed by our worthy mayor, F. E. Little, as president and which gave Brainerd the best baseball the city ever had, be prevailed upon to handle the destinies of the club for the coming season and while perhaps a more capable organization could not be formed it is a matter that the business men and citizens in general should have an interest in, more people should get behind the proposition through their civic organization and personally and not leave the work and financial risk to a few.

Business Manager Strout has furnished a complete financial statement for 1919 which will be published in the Dispatch soon and with this to guide them as to the needs of a club for 1920 in a financial way, some of our "live" business men and citizens should get together, the sooner the better, and start the ball rolling.

Hass-Johnson

Miss Lydia Katherine Hass and Arthur James Johnson, both well known young people of Northeast Brainerd, were married Wednesday, the ceremony taking place at the parsonage of Zion Evangelical church of which the bride is a member, Rev. Fred M. Ohns, the pastor, officiating.

Miss Agnes Fox and Henry Hass attended the bride and bridegroom.

The bride is a charming young girl and the bridegroom is a clerk at the O'Brien Mercantile Co. store. After a short wedding trip they will reside in Northeast Brainerd.

Alumni Form Club

Some twenty former graduates of the Brainerd Commercial College have formed a club and Thanksgiving eve enjoyed a special dinner at the Palace cafe. After the dinner they attended a performance at the New Park theatre. This club is the beginning of a large association of the alumni of the Brainerd Commercial College who anticipate a pleasant program of social diversions for the winter season, the dinner and theatrical party marking the opening event.

Don't Work Too Hard.

If you want to be inspired, don't work too hard. That old axiom about genius being an infinite capacity for taking pains is no longer more than half true. There was Berlioz, for instance, who worked for months trying to think up a melody, and then giving up the task in despair, when he suddenly came to the surface humoring an entrancing time. When you seem to have run out of rhymes or melodies, stop thinking about them and go out for exercise. All of a sudden, just what you want may come popping up into your consciousness.

Cut this Out—It is Worth Money.

DON'T MISS THIS. Cut out this slip and enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Kidney and Tar Compound, for coughs, colds and croup, Foley Kidney Pills and Foley Cathartic Tablets. H. P. Dunn.

ATTENTION!

Christmas Shoppers

Come to Clark's on Saturday and select what you want, lay it away, and we will deliver at any time before Christmas. Make this an "Old Fashion Christmas" by giving something for the home that will last and that all will enjoy. Note some of the bargains we are offering for Saturday:

Christmas

Toys and Games

Here we have a great stock of dolls, games, electric trains, sleds, Kiddie Kars, story books and in fact everything to make the kiddies happy on Christmas. Come and see for yourself and have your selections laid away for Christmas delivery.

"CLARK'S"

Volunteers to Mine Coal in Kansas

(By United Press)

Topka, Kansas, Nov. 28.—700 coal diggers today responded to Governor Allen's appeal for men to mine coal in Southeast Kansas. Governor Allen declared that the power of the state would be used to relieve the coal famine and protect the lives of those engaged in carrying out this effort.

OFFICERS OF ARMY
GROWING ANXIOUS

REAPPORTIONMENT OF NUMBER ALLOWED UNDER THE LAW IS SERIOUS PROBLEM.

TRYING TO AVOID INJUSTICE

General Pershing Would Show Preference to Those Who Saw Service Abroad—Objections to Single List System of Promotion.

By JAMES P. HORNADAY.

Washington.—Officers of the regular army are anxiously awaiting information as to how they will fare under the legislation for a permanent peace army. Under the law passed in September, which limits the number of officers in the army to 18,000 until June 30 next, there are approximately 9,500 permanent officers of the regular army and 8,500 temporary or emergency officers in the service.

Many of the regulars have been demoted from their temporary advanced rank held during the war, but many others remain with higher temporary rank, and it is this class that is apprehensive that demotion is in store for them. Following the discharge of so many emergency officers, there must be a reapportionment of the numbers in the several grades, and the general staff is at work on the problem. One plan suggested is to discharge all officers of the regular army from their present emergency grades and recommission them as required in grades above that permanently pertaining to them but lower than those they now hold.

Adjustment of the list is a matter that requires much work, and it is realized that no amount of care taken to avoid injustice will satisfy everybody that favoritism has not entered into the transaction. If General Pershing exercises the influence upon army affairs that is expected, there will be a decided preference shown for these officers that had war service in France in the matter of denial of important duty and of selection for grades of general officer. He made this emphatic in his statements at the joint sessions of the senate and house military committees, and his views on the subject have been received with approval at the capitol.

General Pershing's Views. He believes that reward and recognition for service during the war should be practically confined to those officers that served in command of armies, corps and divisions in the presence of the enemy and those that were heads of staff departments of the American expeditionary force. General Pershing would go further, and give preference to officers of war service in any system of promotion that contemplates employment of a single list in that direction or the modified list of selection that he is inclined to regard with favor.

This has brought up the question of justice to those officers of splendid reputation who were prevented by the exigencies of the service from going to France. Such officers were kept at home, serving in important positions in camps and in the war department, and they already have been punished to their own conception of the situation, by the deprivation of an opportunity to serve where they could distinguish themselves, and now they must suffer the added blight of possibly retarded promotion and of finding themselves excluded from the list of eligibles for appointment to the grades of general officer. Nevertheless the general proposition advanced by General Pershing has been endorsed at the capitol.

The Single List System. Prospect that the single list system of promotion will be authorized by congress as a means of equalizing promotion in the army is of much interest to officers. The plan contemplates the placing of officers of all branches of the army on a single list for promotion purposes in accordance with their length of service, and to make promotions as now occur in the several arms and corps of the service. The system is regarded with favor as a security against favoritism and injustice, and it is preferred by army officers to the war department's plan for promotion by selection, the prejudice against which has been shared by members of the military committees that have heard some emphatic protests from army officers against that substitute for promotion by seniority.

Arguments advanced in behalf of promotion by selection have not impressed members of congress, who would be gratified if it could be arranged through legislation to equalize promotion so that the troublesome question of advancement might be settled permanently. Anything that contributes to that end is destined to obtain congressional support, and most members of the military committees realize that adoption of promotion by selection would lead to many appeals from officers and to allegations of unfairness that congress might be called upon to investigate and correct.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

A Coated Tongue?
What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order. PROF. HEMMETER says: "The liver is an organ secondary in importance only to the heart."

We can manufacture poisons within our own bodies which are

as deadly as a snake's venom.

The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

A blockage in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take castor oil or a pleasant laxative. Such a one is made of Mayapple, leaves of aloe and jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Liver and Gall Pectoral.

KEEP EYE ON HENS

Hawaiian Owners of Chickens Are Sleeping Lightly.

Fearful That Mme. Pele, the Goddess Who Lives in Kilauea Crater, Is Eager for More Poultry to Furnish Her Dinner.

Owners of coal-black game cocks in Hawaii are keeping out an eye to see that the chicken house is locked securely every night.

And that's all because the volcano of Kilauea is now the most active it has been for 35 years.

Six months ago Kilauea was spouting away in its mile-wide bowl of burning, molten rock, with the level of the flaming crimson sea of boiling lava 900 feet from the top of the crater.

The night that Secretary of the Navy Daniels and his party paid Kilauea a visit—the latter part of August—the level of the seething lava lake was about 50 feet below the crater's top.

Several overflows already have occurred. A cone which once jutted 500 feet above the crater's top has melted away into the sea of fire. Two hours after the secretary and his party left the main crater and a second smaller one, caved in, joining the craters. And Kilauea still is going strong.

As to the connection of all this with coal-black game cocks? Oh, that's very simple.

Many years ago, when the islands first were becoming a white man's land, Kilauea became angry. It roared and hissed and sputtered and the ground shook. Then the lava overflowed and moved slowly down the mountain side toward Hilo.

The native Hawaiians had been Christians but a comparatively short time. Their fright knew no bounds, for the island legends are full of the tales of what Kilauea did when Mme. Pele, the goddess who lived in Kilauea's crater, became angry.

So the Hawaiians prayed that the flow might stop, but it didn't.

Then they danced, but that was ineffective.

Finally, forgetting their Christianity for a time, they sent a party by canoe to Honolulu to consult a few remaining priests of the days when they all worshipped the strange South sea deities.

"Throw a black rooster into the lava flow," was the advice they brought back.

The sleekest, shiniest cock on the Island of Hawaii was picked for the sacrifice, and while the maidens danced, the warriors cast the squawking bird into the base of the lava flow.

In an hour the flow had stopped.

Mme. Pele, the most feared goddess of the island, evidently had been satisfied with a chicken dinner.

American residents of the island believe that if there is ever another big lava flow, coal-black roosters will come into demand once more.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through taking them.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect. 10c and 25c a box.

PRINCE ALBERT

YOU can't help cutting loose joy's remarks every time you flush your smokespot with Prince Albert—it hits

you so fair and square. It's a scuttle full of jimmy pipe and cigarette makin's sunshine and as satisfying as it is delightful every hour of the twenty-four!

It's never too late to hop into the Prince Albert pleasure-pasture! For, P. A. is trigger-ready to give you more tobacco fun than you ever had in your smokecareer. That's because it has the quality.

Quick as you know Prince Albert you'll write it down that P. A. did not bite your tongue or parch your throat. And, it never will! For, our exclusive patented process cuts out bite and parch. Try it for what ails your tongue!

Toppy red bags, tidy red tins, handsome pound and half pound tin humidores—and that clever, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

Unrest.

"Now," inquired the man of ponderous manner, "what is the cause of all this unrest?"

"Well," replied the man who always tries to give some kind of an answer; "I can't undertake to speak for anybody except myself. Most of mine is caused by a family of jazzmaniacs in the adjacent flat."

Only Wings.

"How do you know it was a stork and not an angel that brought your little brother?"

"Cause I heard pa complain about the size of the bill, and I guess angels don't have bills."

Machine Washes Cars.

A machine has been invented to wash the outside of railroad cars as they pass through it.

8,000 Different Fish in the Nile.

It is believed the Nile contains a greater variety of fish than any other river in the world. An expedition sent by the British museum brought back 8,000 specimens.

TWIN CITY AUTO PARTS CO.
